### This is modubooq ™

Modubooq<sup>™</sup> consists of several reusable pages, all with a colourful design. You can rearrange these pages, add new ones or take out unused ones. This is how you create your own modubooq<sup>™</sup>, exactly suiting your needs! Because modubooq is modular, you may assemble the notebook yourself any way you like! You receive all parts separately.

With our page designs we want to inspire you to write down what matters in life. Notes, ideas, to do's, your plans and lessons learned. Modubooq<sup>™</sup> has a minimal and colorful design. We want our page designs to inspire motivation and be functional, but at the same time being calm and matching with the rest of our PATboard products.

### Duratech3 <sup>™</sup> pages

Moving forward, our goal was to achieve the following technical innovations over other reusable notebooks.

The most paper-like writing experience possible on rewritable paper. Have the most durable material on the market yet to be found, with no residue or pressure marks left after writing. The fastest drying ink. To have 100% waterproof pages.

To be fair, we think we achieved these goals. Well, we didn't test the infinity part, but we know this material will not let you down in durability. Besides, we wanted the material to be recyclable.
